PRINOTH CONNECT FLEET MANAGEMENT

DATA MAKES THE DIFFERENCE

Efficiently and sustainably manage your entire fleet with key data from any type of vehicle. Get a bird's-eye view in real time or analyze historical insights to help optimize your operations.

COMPLETE FLEET OVERVIEW

Track all vehicles, key statistics, status, and usage anytime, anywhere. Replay fleet movements and review historical insights.

SMOOTHER COORDINATION

Seamless knowledge transfer keeps your whole team updated on the status of the entire fleet.

OPTIMIZED OPERATIONS

Reduce idle time, fuel consumption, and downtime with smarter trip planning. Review tiller settings, winch tension and engine readouts to help improve the final slope quality.

OPERATOR PROTECTION

Snow groomer activities are logged and events that have taken place in the past can be viewed anytime.

FEATURES

- Intuitive interface that is easy to use on PC, tablet, or smartphone (Android & iOS)
- Real-time secure data transmission technology
- Comprehensive reporting with clear statistics and in-depth evaluations at a glance
- CAN-bus based system for fast installation and activation
- Fleet-wide usability for vehicles such as snow groomers, snowmobiles, trucks, and more
- Durable and easy-to-use RFID key for secure operator recognition
- Integrated with online resort management platform Skadii
