PRINOTH CONNECT
OBJECT EDITOR

SIMPLIFY SLOPE MANAGEMENT

Efficient and organized slope management is critical to seamless operations and customer satisfaction. The Object Editor provides the tools needed to create, edit, and manage objects across your ski resort—empowering your team to work safely, stay organized, and deliver high-quality results.

BOOST SAFETY

Map out fixed and movable objects to reduce risks.

STREAMLINE SLOPE MANAGEMENT

Manage boundaries and slope status for clearer workflows.

IMPROVE EFFICIENCY

Help operators stay oriented and organized so they can be more productive, especially in challenging conditions.

FEATURES

- Mobile and web application for versatile, on-the-go access
- Easily create, edit, and delete objects
- Color-code objects for clear visualization
