SNOWPARK SERVICES CROSS COUNTRY

DIGITALIZE YOUR CROSS-COUNTRY TRACKS AND TRAILS

Deliver memorable experiences for both recreational skiers and professional athletes by opening earlier. With the digitalization of your cross-country tracks you have the perfect tool to build and maintain your tracks and trails easily and sustainably.

TAILORED SOLUTIONS

We collaborate with your team to develop a sustainable, resource-efficient digital plan that meets the needs of both everyday guests and professional athletes—ensuring responsible operations and exceptional experiences.

SAVE SNOW, TIME & ENERGY

Resource optimization and precise calculations of track attributes deliver sustainable tracks and trails, reducing snowmaking needs and machine hours.

EFFORTLESS CONSTRUCTION & MAINTENANCE

Digital guidance displayed directly on the vehicle helps operators—both experts and newcomers—build and maintain top-quality tracks and trails with ease.

WHAT YOU GAIN

- Digitalization of your desired track and trail profile
- Customized to your goals, making sure you get the digital plan you need
- Resource optimizations to minimize costs and secure your long-term success
- Precise calculations of track attributes like length and differences in elevation
- The digital construction guidance ensures quick setup, the reproduction of your track profile at any time and extended operational periods
