Fleet Management

DIGITAL TECHNOLOGIES TO CONNECT YOUR SKI RESORT

BE SUSTAINABLE AND SAVE MONEY

Snow Measurement | **Fleet Management** | Task Manager | Maintenance Overview

FLEET MANAGEMENT

All vehicles at a glance

Whether snow groomer, snowmobile or any other vehicle—know where and what they are doing at all times. With our fleet management system we give you the big picture helping optimize your operations.

Everything under control through a complete overview of all vehicles as well as their key figures, status and operators—always and everywhere

Save time and money through easy knowledge transfer and fast information exchange—and keep operators up to date at all times

Optimize operations through detailed trip planning, reduction of idle time and fuel consumption, less downtime and improved performance

Peace of mind for operators—through the ability to log all activities of the snow groomer, precautions taken can be shown with one click

FEATURES

- Application is linked to the online resort management platform Skadii
- Intuitive and self-explanatory user interface on all end devices such as PC, tablet or cell phone (suitable for Android and iOS)
- Secure data transmission technology in real time
- Seamless reporting with detailed evaluations and clearly arranged statistics
